Luxury self-catering Apartment (above main house)

The ground floor entrance to this self-catering apartment speaks of Africa with its door of rough railway sleepers and its large woven wattle pod lights hanging in front of the picture window. As you ascend the staircase to the top floor, the well-designed kitchen with raw concrete and muted tones invites you into its warmth.

Artwork on the walls reflects true South Africa. The kitchen is also equipped with a dishwasher, convection microwave, 4 plate gas hob, a small grill oven, toaster and kettle. The 3 luxury bedrooms and 2 bathrooms (both with a shower only) are again decorated in muted tones broken by bright colour accents with throws and cushions. The spacious main bedroom is en suite with a separate patio also looking north. 2 of the bedrooms, as well as the living area, enjoy air conditioning.

The lounge area is spacious and comfortable opening out onto 2 patios - one north facing with mountain and sea views and the other looking south towards the Robberg Peninsula. This apartment sleeps 4 - 6.
